AFTERDISASTER[®] RECEIVES TOP INDUSTRY SAFETY AWARD 4TH YEAR IN A ROW

MT. LAUREL, NJ - May 14, 2013 NADCA – The HVAC Inspection, Maintenance and Restoration Association has named *AFTERDISASTER[®]* as a recipient of the 2012 Outstanding Safety Award. This honor was awarded to show that *AFTERDISASTER[®]* is dedicated to ensuring the safety of its employees and clients. *AFTERDISASTER[®]* is now an award winner for four consecutive years.

AFTERDISASTER[®] specializes in the provision of emergency and restoration services, as well as general contracting, for water, fire, smoke and mold damage victims in residential, commercial, institutional and governmental buildings. They service all markets in NC, SC, and VA and provide catastrophic and large loss emergency services to commercial and industrial customers throughout the United States and the Caribbean from the Large Loss Division based in Fort Mill, SC. *AFTERDISASTER[®]* was one of 32 companies in the US who were winners of this award, and they were the only winner in NC.

NADCA members have made the decision to set themselves apart from other service providers by committing themselves to the best practices in HVAC assessment, cleaning and restoration,” said NADCA Executive Director Jodi Araujo, CEM. “The NADCA Safety Award recognizes our members who have made and followed through on a commitment to safety for their employees, their customers and for the communities they serve.”

“This dedication to safety is one more reason that NADCA-member HVAC inspection, maintenance and restoration contractors are both the employers of choice and the service providers of choice in their communities,” added Araujo.

AFTERDISASTER[®] Manager, DeeAnna Burton stated “Safety is a primary focus in all departments at the company. Our employees are credited with maintaining a safe and secure workplace, which helps to protect our clients and workers.”

The requirements for NADCA’s Safety Awards are based on standards from the Occupational Safety and Health Administration (OSHA). In order to complete the Safety Awards Application, a company must maintain an OSHA #300A Log in accordance with record keeping requirements under the Occupational Safety and Health Act of 1970.

The National Air Duct Cleaners Association created the NADCA Safety Awards Program to recognize those companies that have sustained superior employee safety and health program results.
